

SCORING SYSTEM AND REPORT:

- Score reports for each year's NEWL main exam become available in July after the exam administration. Examinees will receive a link to download their student score report to the email with which they were registered for the exam.
- An official score report may also be sent to a college or university of the examinee's choice. The official score report includes an endorsement letter from the College Board and guidelines on how to interpret NEWL scores.
- Currently, **up to five official score reports** are sent to a college or university without charging additional fees. Requests may take up to 10 business days to process. The examinee must submit the [Score Report Request Form](#) to American Councils.
